

16V Cordless Drill Screwdriver with Keyless Chuck

This cordless drill operates on a 16V battery and is suitable for drilling and screwdriving. It features a keyless chuck that allows for quick and easy bit changes.

Product Overview

Professional Cordless Performance

This 16V cordless drill and screwdriver is engineered for efficiency and versatility in professional environments. Featuring a high-performance two-speed powder metallurgy gearbox and a convenient keyless chuck, it allows for rapid bit changes and precise control. Designed with portability in mind, the unit includes a belt clip for high-altitude operations and an integrated LED light to ensure visibility in dimly lit workspaces.

Technical Specifications

Maximum Initial Voltage	16 V
Nominal Voltage	14.4 V
Battery Capacity	1.5 Ah

Features

Key Features

- Integrated LED work light
- 1-hour quick charge time
- Short circuit protection
- Battery capacity indicator
- Spindle lock for quick bit changes

Design Highlights

Two-speed gearbox, Belt clip, Cordless, Lithium-ion technology

Packaging

Storage

Blow Molded Case (BMC)
