

16V Cordless Screwdriver with Auto-Lock Chuck

This 16V cordless screwdriver is designed for various screwdriving tasks. It features a 1/4" auto-lock chuck for quick bit changes and is powered by a lithium-ion battery.

Overview

Professional Cordless Performance

This 16V cordless screwdriver is engineered for efficiency and precision in various fastening applications. Featuring a robust two-speed gearbox and a convenient auto-lock chuck, it allows for seamless bit changes and controlled operation. The integrated lithium-ion battery system ensures extended runtime, while smart features like the LED work light and battery capacity indicator enhance usability in professional environments.

Technical Specifications

Maximum Initial Voltage	16 V
Nominal Voltage	14.4 V
Gearbox	Two-speed powder metallurgy

Features

Key Features

- Built-in LED work light
- Auto-lock chuck for quick bit changes
- Belt clip for high-altitude operation
- Spindle lock mechanism
- Battery capacity indicator

Battery & Charging

Quick Charge Time	1 hour
Safety Features	Short circuit protection, Lithium-ion technology
