

17 1/2" Matrix Body PDC Drill Bit

This 17 1/2" matrix body PDC drill bit is designed for demanding drilling applications. The bit features a robust matrix body construction for enhanced durability and wear resistance.

Overview

Premium Matrix Body PDC Drill Bit

This 17 1/2" Matrix Body PDC (Polycrystalline Diamond Compact) drill bit is engineered for demanding drilling applications where durability and wear resistance are paramount. Designed for optimal performance across a variety of geological formations, it ensures efficient and reliable operations. It is an ideal solution for challenging environments, including oil and gas exploration and geothermal drilling projects.

Technical Specifications

Bit Size	17.5 inches
Model Identifier	HPM5319 M223
Body Material	Matrix
Certifications	ISO

Applications

Recommended Industries

- Oil and Gas Exploration
- Geothermal Drilling
