

17-Inch Steel and Plastic Tool Box

This 17-inch tool box is designed for professional use. It features a durable construction combining steel and plastic for strength and longevity.

Product Overview

Built for Professionals

This 17-inch tool box is engineered for durability and reliability in professional work environments. Combining a robust steel frame with high-impact plastic components, it offers an ideal balance between strength and portability. It serves as a versatile solution for organizing, securing, and transporting essential hand tools safely.
