

17kVA Silent Diesel Generator Set

This ultra silent diesel generator set provides power ranging from 8.5kVA to 30kVA. It is designed for durability and easy maintenance, featuring advanced control systems for safe and reliable operation.

Overview

Reliable Power Solution

The 17kVA diesel generator set is a robust and efficient power solution engineered for consistent performance across various applications. Featuring a high-performance alternator and a durable diesel engine, this unit is designed to provide stable power output for both prime and backup needs. Its compact, weather-resistant enclosure ensures longevity and simplifies maintenance, while advanced control systems provide essential monitoring and operational protection.

Technical Specifications

Rated Power Output

17 kVA
