

1.7L Digital Glass Electric Kettle with Tea Infuser

This 1.7L digital glass electric kettle combines modern design with functionality. It features digital controls for precise temperature settings and includes a stainless steel tea infuser.

Product Overview

Modern 1.7L Digital Glass Kettle

This sophisticated 1.7L electric kettle combines a durable borosilicate glass body with advanced digital controls for precision brewing. Designed for versatility, it features a removable stainless steel tea infuser and adjustable temperature settings to suit various tea and coffee types. Safety and convenience are prioritized with a 360-degree swivel base, automatic shut-off, and boil-dry protection.
