

1.7L Electric Kettle with Water Level Indicator

This electric kettle quickly boils up to 1.7 liters of water. It features a water level indicator with cup markings for accurate filling.

Product Overview

Efficiency Meets Capacity

This 1.7L electric kettle is designed to balance convenience and high-volume performance for professional settings. Featuring a clear external water level indicator, it allows for precise measurements, ensuring the right amount of water is boiled every time. The intuitive design includes markings from 0.5L up to the 1.7L maximum, making it an essential appliance for any kitchen or breakroom.
