Product Overview

Modern Glass Electric Kettle

This 1.7-liter electric kettle combines elegant aesthetics with high-performance functionality, featuring a transparent borosilicate glass body that allows for easy water level monitoring. Equipped with a powerful 1850-2200W heating element, it ensures rapid boiling for tea, coffee, and other hot beverages. The integrated blue LED illumination adds a modern touch while the safety-focused design includes boil-dry protection and automatic shut-off features.
