

1.7L Stainless Steel Electric Kettle with Thermometer

This stainless steel electric kettle is designed for rapid water boiling. It features a built-in thermometer for precise temperature monitoring, allowing users to heat water to the desired level.

Product Overview

Premium Stainless Steel Precision Kettle

The T-9010T is a professional-grade 1.7L stainless steel electric kettle designed for efficiency and precise temperature control. Featuring an integrated analog thermometer, it allows users to monitor water temperature in real-time, making it ideal for brewing specialty teas and coffees. Its durable stainless steel body, concealed heating element, and advanced safety features make it a reliable choice for any commercial or professional kitchen environment.

Technical Specifications

Power Performance

2200 W

Max Power (220-240V)

1200 W

Max Power (100-120V)

Capacity

1.7 L

Supported Voltages

220-240V 50/60Hz, 100-120V 50/60Hz

Features

Safety Protections

- Dry boil protection
- Automatic shut-off when boiled
- On/Off switch with light indicator

Design & Utility

360° Rotation • Integrated Thermometer • Cord Storage • Concealed Heating Element
