

18-Bottle Thermoelectric Dual Zone Wine Refrigerator

This thermoelectric wine refrigerator stores up to 18 bottles with dual temperature zones. It features a metal box with a glass door, LED lighting, and a digital touch screen control panel.

Product Overview

Premium 18-Bottle Dual Zone Storage

This thermoelectric wine refrigerator is designed for professional-grade wine preservation, offering dual temperature zones to accommodate different varietals simultaneously. Featuring a sleek metal cabinet with a glass door and digital touch screen controls, it provides a vibration-free environment that protects the integrity of your collection. With a wide range of international certifications, this unit is a reliable choice for both hospitality projects and high-end personal use.
