Product Overview

Versatile Industrial Cooling

This 18-inch 3-in-1 industrial fan provides a flexible cooling solution designed for professional environments. It can be easily configured to function as a stand, wall, or table fan, allowing for optimized placement in diverse workspaces. Built with a robust metal grill and a powerful motor, this unit ensures reliable air circulation and safety.

Technical Specifications

Key Performance Metrics

18 inch

Fan Size

1.4 m

Maximum Height

Electrical Requirements

- Voltage: 220-240V
- Frequency: 50/60Hz
- Motor size: 71*20mm with thermal fuse
- Power cord: 2*0.15mm²*1.8m with two round pins plug

Construction & Design

Build Details

Component	Specification
Grill Type	Metal clip grill (500mm diameter, 120pcs ribs)
Blade Type	3 metal blades
Body Material	Polypropylene (PP)
Base Options	800g wheel base or 700mm cross base

Compliance

Safety Standards

CE, CB

Logistics

Packaging Details

2 units per 5-layer white box
