

18-Inch Bolt Cutter with CR-V Steel Jaws

This heavy-duty bolt cutter is equipped with high-strength CR-V steel jaws for efficient cutting of bolts, rods, and wires. The 18-inch model provides enhanced leverage, while the ergonomic handles ensure comfortable grip and reduced user fatigue.

Product Overview

Heavy-Duty Cutting Performance

This 18-inch bolt cutter is engineered for demanding construction, industrial, and maintenance environments. Featuring high-strength CR-V steel jaws, it provides the durability required for efficient cutting of bolts, rods, and wires. The ergonomic handle design ensures a comfortable grip, helping to reduce user fatigue during extended periods of operation.

Technical Specifications

Tool Length	18 inches
Jaw Material	CR-V Steel
Model Identifiers	4708, 80-IT, 979466

Application

Suitable Applications

- Construction
- Industrial Maintenance
- Rod and Wire Cutting
- Bolt Cutting
