

18-Inch Petrol Chainsaw for Tree Felling and Pruning

This 18-inch petrol chainsaw is a powerful and reliable tool suitable for both professional and home use. It is designed for felling trees, pruning branches, and cutting firewood efficiently.

Product Overview

Professional Performance and Reliability

This 18-inch petrol chainsaw is a robust solution engineered for demanding tasks including tree felling, branch pruning, and firewood preparation. Designed with ergonomics in mind, it minimizes user fatigue during long sessions while maintaining high output performance. Integrated safety systems, such as an active chain brake and vibration dampening, ensure reliable operation in professional environments.

Technical Specifications

Cutting Bar Length	18 inches
Engine Type	Petrol

Safety and Features

Primary Applications

- Tree felling
- Branch pruning
- Firewood cutting

Safety Equipment	Chain Brake, Anti-Vibration System
