Overview

Professional Cold Beverage Solution

This 18-liter commercial beverage dispenser is designed for high-performance cooling and reliable service in busy hospitality environments. Featuring a durable food-grade polycarbonate bowl and an intelligent temperature control system, it ensures beverages are kept at the optimal chilled temperature. The unit combines a stainless steel evaporator with a high-efficiency copper coil to provide superior cooling performance while maintaining a quiet, mute operation.

Technical Specifications

Capacity	18 L
Cooling Technology	Spray Type, Stainless Steel Evaporator, Copper Coil
