Overview

Professional Grade Digital Body Weight Scale

This transparent digital scale combines a modern aesthetic with high-precision performance, featuring a durable 6mm tempered glass platform. Designed for professional and home use, it offers a high weight capacity of 180kg with sensitive 100g increments for accurate tracking. The intuitive tap-on activation and auto-power-off functions ensure energy efficiency and ease of use for daily health monitoring.

Technical Specifications

Detailed overview of the scale's features including the 6mm tempered glass, LCD display dimensions, and BMI reference chart.

Supported Units

kg • lb • st

Maximum Capacity	180 kg
Division/Precision	100 g
Platform Material	Tempered Glass
Sensor Technology	High precision strain gauge sensor

Design & Dimensions

Safety Design

- Fillet grinding for smooth edges
- Low center of gravity to prevent rollover
- Slip-resistant tempered glass surface

Product Dimensions	268 x 298 x 27 mm
LCD Display Dimensions	30 x 80 mm

Operation & Power

Battery Type	1 x CR2032 battery (included)
Operating Features	Tap-on Activation, Auto-power-off, Overload Indicator, Low Battery Indicator

Health Monitoring

Body Mass Index (BMI) Reference

The scale provides context for Body Mass Index (BMI), an international standard used to measure obesity and health levels across categories including Thin, Normal, Overweight, and Fat.

Error Indicators

LCD Display Codes

Code	Meaning
Lo	Low battery - replace battery
oL / Err	Overload - weight exceeds capacity
