

180mm Angle Grinder for Cutting Grinding Polishing

This angle grinder is designed for heavy-duty cutting, grinding, and polishing. It features a robust motor and durable construction and accepts 180mm grinding discs.

Product Overview

Heavy-Duty 180mm Angle Grinder

This powerful 180mm angle grinder is engineered for demanding industrial tasks including cutting, grinding, and polishing. Equipped with a robust 2020W motor, it delivers consistent performance for metalworking and construction applications. Its ergonomic design ensures a comfortable grip during extended use, while the durable construction guarantees reliability in tough environments.

Technical Specifications

Rated Power Input	2020 W
Rated Speed	8300 r/min
Max Wheel Diameter	180 mm
Hole Diameter of Wheel	22 mm

Physical Characteristics

Net Weight	6 Kg
Suitable Applications	Metalworking, Construction, Cutting, Grinding, Polishing
