Product Overview

Professional Grinding Performance

This 180mm diamond cup wheel is engineered for high-efficiency surface grinding and material removal. It features a high diamond concentration that ensures a longer tool life and aggressive performance on tough surfaces like concrete, stone, and refractory materials. Designed for professional use, it delivers excellent flatness and consistent results when used with standard angle grinders.

Technical Specifications

Maximum Speed

8500 RPM

Max RPM

80 m/s

Max Operating Speed

Diameter	180 mm
Bore Size	22.23 mm

Application & Compatibility

Design Features

- High diamond concentration for aggressive removal
- Cooling holes to prevent overheating
- Precision balanced for reduced vibration
- Directional rotation indicator

Available Diameter Range

100mm • 115mm • 125mm • 180mm

Compatible Materials	Concrete, Stone, Refractory Materials, Paint, Glue, Epoxy Resin
