

180W-200W Photovoltaic Module

This high-efficiency photovoltaic module converts sunlight into electricity. It is suitable for residential, commercial, and utility-scale applications.

Overview

High-Efficiency Photovoltaic Module

This 180W-200W photovoltaic module is engineered for optimal energy conversion, efficiently transforming sunlight into electricity. Designed for versatility, it is suitable for a wide range of applications including residential, commercial, and utility-scale projects. The module features durable, weather-resistant construction to ensure reliable performance and long-term energy generation.

Technical Specifications

Power Output Range

180 W

Minimum Power

200 W

Maximum Power

Suitable Applications

Residential, Commercial, Utility-scale

Features & Compliance

Key Features

- Advanced cell technology
- Weather-resistant design
- Durable construction
- High-efficiency energy conversion

Compliance

Industry Standard Compliant • Safety Certified
