

185mm Electric Circular Saw with 7000 RPM

This circular saw is a powerful cutting tool designed for precision. It has a blade diameter of 185mm, a bore diameter of 20mm and can reach a maximum speed of 7000 RPM.

Overview

High-Performance Cutting Precision

This 185mm electric circular saw is engineered for demanding cutting tasks, combining high-speed performance with robust construction. Designed for efficiency, it features a powerful motor capable of reaching 7000 RPM, ensuring smooth and clean cuts. With adjustable cutting depth and angular settings, this tool provides the versatility required for professional woodworking and construction applications.

Technical Specifications

Maximum Speed

7000 min-1
No-Load Speed

Blade Diameter	185 mm
Bore Diameter	20 mm
Blade Teeth	24

Features

Key Functionalities

- Spindle lock for easy blade changes
- Adjustable cutting depth
- Adjustable cutting angle
- Lock-on function for continuous operation

Ergonomics	Comfort Grip, Enhanced Control
