Product Overview

High-Performance Energy Solution

This 18650 lithium-ion rechargeable battery pack is engineered to deliver a consistent 3.7V output, making it an ideal power source for demanding electronic applications. Designed with reliability and longevity in mind, it provides a compact and efficient energy solution for POS terminals and various portable devices. Its robust construction ensures stable performance, helping to maintain operational uptime for critical business equipment.

Technical Specifications

Nominal Voltage	3.7 V
Battery Chemistry	Lithium-Ion (Li-ion)
Form Factor	18650

Application & Features

Key Benefits

- Compact design
- Rechargeable efficiency
- Extended lifespan
- Reliable power output

Primary Applications	POS Terminals, Portable Electronics, Electronic Devices
