

186L Top Freezer Refrigerator with Mirror Finish

This 186L refrigerator features a top freezer compartment and a mirror finish. It incorporates energy-saving technologies such as a high-efficiency compressor and white LED lighting.

Product Overview

Efficiency Meets Sophistication

The 186L Top Freezer Refrigerator combines high-performance energy-saving technology with a modern mirror-finish tempered glass design. Engineered for reliability, it features automatic low-temperature compensation and an optimized refrigeration system. With its bright white LED lighting and durable, anti-friction surface, this unit is designed to meet the rigorous demands of professional storage environments.

Performance

Core Performance

186 L

Total Net Volume

0.23 Kwh/24h

Daily Energy Consumption

100 W

Rated Input Power

Technical Details

Professional packaging and protection during transit.

Model Specifications

Feature	Value
Model Number	BCD-186CHG2A
Freezer Volume	68 L
Star Rating	3 Stars

Key Features

Innovative Technologies

- High-efficiency compressor and optimized heat exchange system
- R600a eco-friendly refrigerant
- Intelligent environmental temperature transmitter
- Automatic low-temperature compensation
- Ultra-thick insulation with double door gaskets
