

1.8L Tempered Glass Electric Kettle

This 1.8L tempered glass electric kettle is designed with food-grade, explosion-proof glass. It features a 360° rotational base, automatic shut-off, and fast boiling capabilities.

Product Overview

Elegant and Efficient Boiling

This 1.8L electric kettle combines a noble, elegant design with high-performance functionality, making it an ideal addition to kitchens, hotels, or office spaces. Constructed with food-grade, explosion-proof glass and 304 stainless steel components, it ensures safety and durability while allowing users to monitor the boiling process. With a rapid 3-6 minute boil time, automatic shut-off, and boil-dry protection, this appliance offers a safe, convenient, and modern water-heating solution.

Performance & Capacity

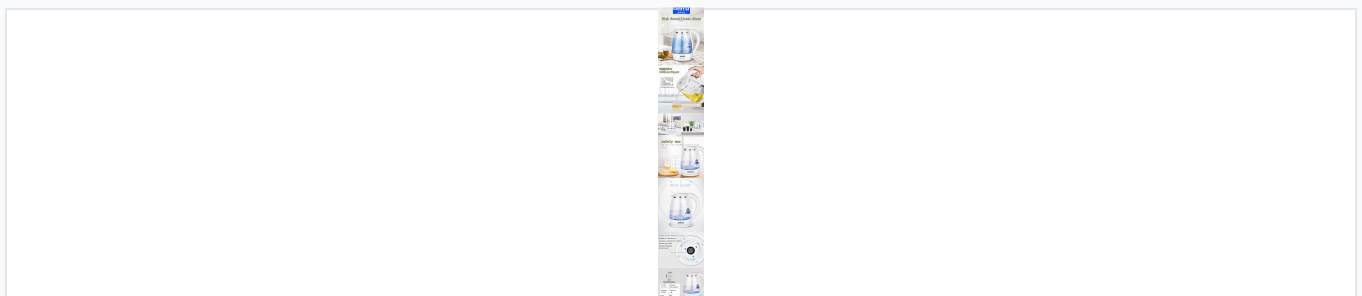

Performance Metrics

1.8 L Capacity	1500 W Power Output	3 min Boil Time (Min)
--------------------------	-------------------------------	---------------------------------

Electrical Specifications

- Voltage: 220V/50Hz
- Controller: Single Chinese Controller
- Over-heat protection included
- Automatic shut-off function

Materials & Design

High borosilicate glass construction with blue light indicator and ergonomic design.

Materials	Food Grade Glass, 304 Stainless Steel, PP Plastic
Dimensions	220 x 160 x 240 mm

Usability & Features

Key Features

360° Rotational Base • Cordless Design • Blue Light Indicator • Removable Filter

Available Plug Types

VDE, BS, Thailand, South Africa

Compliance & Logistics

Certifications

CB

Warranty

12 Months
