

1.8m Kitchen Ventilation Hood with LED Lighting

This 1.8-meter wide kitchen hood is designed for efficient ventilation. It features integrated LED lighting to illuminate the cooking surface and a fine mesh filter for effective removal of smoke, grease, and odors.

Overview

Professional 1.8m Island Ventilation Solution

This 1.8-meter island hood is designed for modern kitchens requiring high-performance ventilation and a sleek, minimalist aesthetic. It features a unique 310W energy-saving motor and a double impeller system with an efficient broadleaf turbine for superior extraction. The unit is suspended by thin cables for a contemporary floating appearance and includes integrated LED lighting for optimal workspace illumination.
