

18V 3.0Ah Lithium-Ion Power Tool Battery

This is a high-performance 18V 3.0Ah lithium-ion battery suitable for power tools. It features advanced Li-ion technology for enhanced power and extended runtime.

Product Overview

High-Performance Power Delivery

This 18V 3.0Ah lithium-ion battery is engineered to provide consistent and reliable power for professional-grade power tools. Utilizing advanced lithium-ion cell technology, it ensures extended runtimes and robust performance during demanding tasks. It is designed with essential safety protocols to guarantee secure operation in various work environments.

Technical Specifications

Voltage

18 V

Rated Voltage

Capacity

3 Ah

Capacity

Compliance & Safety

Handling Guidelines

- Do not disassemble
- Do not crush
- Do not puncture
- Do not short circuit external contacts

Certifications

CE

Country of Origin

China
