Product Overview

Professional 18V Battery Charging Solution

This high-performance 18V battery charger is engineered to provide efficient and reliable power management for your battery packs. Featuring a robust 4.5A output, it ensures rapid and safe charging cycles while incorporating essential thermal and overcharge protection. Designed for professional environments, it includes intuitive LED status indicators to monitor charging, charged, and fault conditions.

Electrical Specifications

Maximum Charging Current

4.5 A

Charging Current

Input Voltage Range	100-240V AC
Input Frequency	50-60Hz
Output Voltage	21 V

Safety & Features

Operational Warnings

- Dry location use only
- Risk of electric shock

LED Status Indicators

- Charging
- Charged
- Fault

Safety Protections	Thermal Protection, Overcharge Protection
