

18V 5S1P Lithium-Ion Battery Pack for Pruning Shears

This 18V 5S1P lithium-ion battery pack is designed for pruning shears. It provides reliable, long-lasting power for efficient pruning.

Overview

Professional Power Solution

This 18V 5S1P lithium-ion battery pack is engineered specifically for use with professional-grade pruning shears. It offers a reliable and consistent power output designed to handle the demands of intensive pruning tasks in both commercial and residential garden maintenance. Built with a focus on durability, the pack includes a robust protective housing and integrated safety protocols to ensure performance and longevity in varied working conditions.

Electrical Performance

Chemistry

Lithium-Ion

Rated Voltage

18 V

Configuration

5S1P

Design & Safety

Safety Integration

- Robust impact-resistant housing
- Integrated safety circuit protection
- Environmental protection

Primary Application

Pruning Shears, Professional Gardening, Home Gardening
