Product Overview

Professional 18V Battery Charger

This high-performance 18V battery charger is engineered to provide efficient and safe power management for 18V battery systems. Featuring a robust 7A charging current, it ensures rapid charging while maintaining battery health. The unit includes advanced LED status indicators for charging progress, full charge, and safety warnings such as high-temperature alerts.

Technical Specifications

Input Voltage	100-240V
Input Frequency	50-60Hz
Output Voltage	21 V
Max Output Current	7 A
