Product Overview

Versatile Cordless Performance

This 18V cordless drill driver is engineered for efficiency in both professional and DIY drilling and fastening tasks. Featuring a reliable lithium-ion battery system, it provides consistent power delivery and extended runtime for demanding applications. The tool incorporates user-friendly features such as an ergonomic design, variable speed control, and a quick-charge battery system to ensure productivity on the job site.

Technical Specifications

Voltage

18 V
Voltage

Battery Capacity

1.5 Ah

Battery Type

Lithium-Ion

Features

Key Features

- Built-in LED work light
- 1-hour quick charge time
- Automatic battery ejection
- Integrated belt clip
- Two-speed powder metallurgy gearbox

Safety & Protection

Short-circuit protection, Battery capacity indicator
