

18W T8 LED Daylight Lamp

This 18W T8 LED daylight lamp is designed for efficient and reliable illumination. Its bright, natural daylight-like light is ideal for various indoor applications.

Overview

High-Efficiency LED Lighting

This 18W T8 LED daylight lamp is engineered for efficient and reliable illumination in diverse settings. Designed to mimic natural daylight, it offers a bright and consistent light output suitable for commercial, industrial, and residential applications. The energy-saving LED technology ensures long-lasting performance while significantly reducing power consumption compared to traditional lighting.

Technical Specifications

Power Consumption	18 W
Form Factor	T8
Light Quality	Daylight

Features

Key Benefits

- Energy-saving LED technology
- Durable construction
- Natural daylight output
- Easy retrofit installation

Recommended Applications	Commercial, Industrial, Residential
Installation Compatibility	Standard fluorescent fixtures
