

19-Inch Open Frame LCD Monitor

This 19-inch open frame LCD monitor features a 1280 x 1024 resolution. It supports VGA and DVI signal inputs and is designed for easy integration into kiosks, control panels, and custom enclosures.

Overview

Industrial-Grade Integration

This 19-inch open frame LCD monitor is engineered for seamless integration into industrial kiosks, control panels, and custom enclosures. Its robust steel chassis ensures durability in demanding environments, while the flexible mounting options support both VESA wall mounting and embedded installation. Featuring a high-brightness 450nits display and wide viewing angles, this unit provides reliable performance for professional commercial and industrial applications.

Display Performance

Brightness

450 nits
