

193L Capacity Top-Freezer Refrigerator

This refrigerator features a total effective volume of 193L and a freezer volume of 71L. Its freezing capacity is 3.5kg/24h, with a power consumption of less than or equal to 0.62kw.h/24.

Product Overview

Compact and Efficient Cooling Solution

This 193L capacity top-freezer refrigerator is designed for high efficiency and reliability. Featuring a dedicated 71L freezer compartment and a Level 1 energy efficiency rating, it provides a cost-effective solution for various professional environments. Its compact dimensions make it an ideal choice for spaces requiring optimal performance without a large footprint.
