Product Overview

Versatile Dual-Function Storage

This 193L chest freezer offers flexible storage solutions with dual-temperature functionality, allowing you to easily switch between refrigeration and freezing modes. Designed for efficiency, it features a direct cooling system and high-quality foaming for superior temperature retention. With its user-friendly mechanical control and durable construction, it provides a reliable solution for diverse food storage needs.

Capacity & Dimensions

Capacity Breakdown

193 L Total Capacity	130 L Freezer Capacity	63 L Fridge Capacity
--------------------------------	----------------------------------	--------------------------------

Dimensions

Type	Dimensions (mm)
Product Dimensions	985 x 565 x 825
Packing Dimensions	1050 x 650 x 860

Technical Specifications

Refrigeration System

- Direct cooling type
- R600a refrigerant
- Inner efficient evaporator
- Super freezer function

Power & Climate 220V/50HZ, Climate Class: SN/N/ST, Energy Class: A

Weight 40 KG

Features

Convenience Features

Storage basket included • Easy-to-clean interior • High-quality foaming • Optional lock and key
