

2-2.5t Lithium Battery Forklift

This electric forklift is designed for safe, efficient, and comfortable operation. It is suitable for goods handling and stacking in industries such as automotive, logistics, and cold storage.

Overview

Efficient Material Handling Solution

The 2-2.5t lithium battery forklift is a versatile material handling solution designed for diverse industrial applications. Powered by high-capacity lithium-ion technology, it offers extended run times, rapid charging capabilities, and significantly reduced maintenance requirements compared to traditional lead-acid models. Its compact design and excellent maneuverability make it an ideal choice for navigating tight spaces in warehousing, logistics, and manufacturing environments.

Performance

Load Capacity

2 t

Minimum Capacity

2.5 t

Maximum Capacity

Power System

Power Source

Lithium-ion Battery

Key Battery Advantages

Rapid Charging, Extended Run Time, Low Maintenance

Design & Ergonomics

Design Highlights

- Compact chassis design
- High maneuverability for tight spaces
- Ergonomic operator controls
- Advanced safety systems

Applications

Ideal Applications

Warehousing • Logistics • Manufacturing • Distribution Centers
