

2-5kW Diesel Power Generator

This diesel generator provides a robust and reliable power solution for various applications. It is engineered for efficient fuel consumption, delivering consistent power output with essential monitoring and safety features.

Overview

Reliable Diesel Power Generation

This 2-5kW diesel generator is a robust and versatile power solution designed for demanding environments, including construction sites, outdoor events, and emergency backup scenarios. It features flexible starting options such as hand, electric, and remote start, ensuring ease of use regardless of the application. With a large fuel tank and options for sound-dampening enclosures, it delivers consistent, efficient performance while maintaining operational safety.

Technical Specifications

Power Output Range

2 kW Minimum Power	5 kW Maximum Power
------------------------------	------------------------------

Starting Options

Hand Start, Electric Start, Remote Start

Operating Frequency

50 Hz

Design & Build

Enclosure Type

Open Frame • Sound Canopy

Portability

- Compact design
- Integrated wheels
- Durable frame

Safety & Control

Safety Systems

- Low oil shutdown
- Overload protection
- Voltage monitoring
- Frequency monitoring
