

2-Gang Stainless Steel Switched BS Socket

This 2-gang switched socket features a stainless steel faceplate for durability. It is equipped with a double pole switch and a protective door to prevent electrical shock.

Overview

Premium 2-Gang Switched Socket

This 2-Gang Stainless Steel Switched BS Socket combines a sleek, brushed finish aesthetic with robust safety features, including a protective door design to prevent electric shock. Engineered with high-temperature resistant materials for switch buttons and housing, it is ideal for demanding environments such as schools, hotels, and modern residential buildings. The double-pole switching functionality ensures enhanced electrical safety for international B2B applications.

Technical Specifications

Number of Gangs

- 2 Gang (Standard)
- 1 Gang (Available)

Device Type	Plug Socket
Product Series	W86A series
Network Frequency	50/60Hz

Design & Materials

Material Composition

Component	Material
Cover Frame	Brushed finish stainless steel
Switch Paddle & Insert	Polycarbonate (PC)
Chassis	High polymer PC with glass fiber
Base	PA Nylon
Contacts	Brass

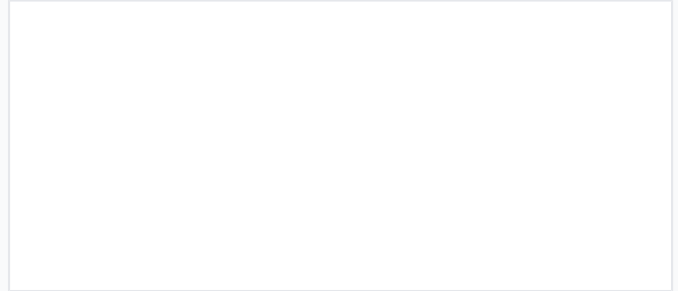

Installation

Mounting Type	Flush wall mounted
Dimensions	86*147mm
Embedding Depth	25 mm
Connection Type	Screw terminals (pillar terminal) M3*6.5mm

Safety & Standards

In-house testing facilities are accredited to ISO/IEC 17025 for rigorous performance and safety verification.

Recognized testing center ensuring all products meet international safety and performance requirements.

IP Rating

IP20

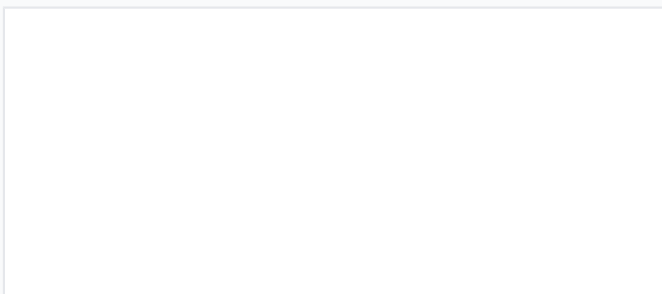

Safety Features

- Child-protective door design
- Double pole switching
- High temperature resistant housing
- Concealed fixing screws

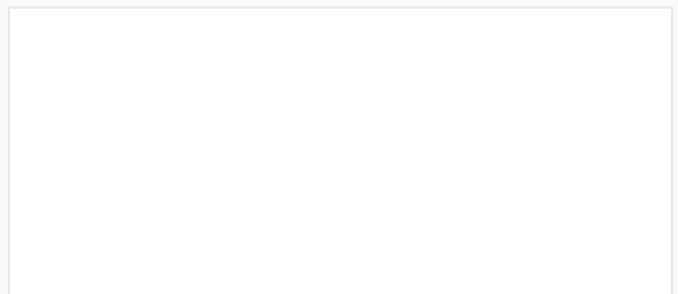

Compliance Standards

BS 1363-2, CE, CB, TUV

Quality Assurance

Our production processes are certified to ISO 9001:2015 standards, ensuring consistent quality in every switch and socket.

Commitment to environmental standards through ISO 14001:2015 certified management systems.

Management Certifications

ISO 9001:2015, ISO 14001:2015, ISO/IEC 17025

Application

Recommended Applications

- Industrial Facilities
- Hotels & Clubs
- Commercial Offices
- Residential Buildings
- Schools
