

2-in-1 Horizontal Steam Iron and Garment Steamer

This 2-in-1 device functions as both a horizontal steam iron and a vertical garment steamer. It features a convenient foldable ironing board design and a heavy-duty dry steam system with a high temperature of 130°C for quick wrinkle removal.

Product Overview

Professional 2-in-1 Steam Solution

The Model 398 is a versatile, high-performance solution designed for professional garment care, combining a horizontal steam iron and a vertical garment steamer in one unit. Featuring a powerful 4-bar pressurized steam system, it operates significantly faster than standard steamers to effectively refresh clothing, curtains, and upholstery. Its integrated foldable ironing board and heavy-duty 130°C dry steam ensure professional-grade wrinkle removal with maximum convenience.
