

2-in-1 Upright and Handheld Vacuum Cleaner

This is a 2-in-1 vacuum cleaner that can be used as a standard upright or detached for handheld use. It features a transparent dust container and adjustable extension wand.

Product Overview

Versatile Cleaning Performance

This 2-in-1 vacuum cleaner offers unparalleled flexibility by seamlessly transitioning between an upright unit for floor cleaning and a detachable handheld configuration for spot tasks. Engineered with a compact profile and an adjustable extension wand, it is designed to reach difficult areas with ease while maintaining a space-saving footprint. The integrated transparent dust container provides real-time visibility into fill levels, ensuring efficient maintenance and consistent performance.
