

2-Inch Earth Auger Drill Bit

This 2-inch diameter earth auger is constructed from steel and fits a 7/8-inch shaft powerhead. It is designed for planting trees, gardening, and large fencing projects.

Product Overview

Professional Soil Drilling Performance

This 2-inch earth auger drill bit is engineered for high-efficiency soil drilling, making it an ideal choice for planting trees, gardening, and large-scale fencing projects. Constructed from durable, all-steel materials, it features a hardened tip for optimal penetration and continuous flighting for effective soil removal. Designed for reliability and ease of use, this tool provides a versatile solution for both professional landscapers and dedicated gardeners.
