Overview

High-Efficiency Water Transfer

This 2-inch gasoline-powered water pump is engineered for reliable performance in irrigation, drainage, and general water management tasks. Featuring a robust 5.5 HP engine and a maximum displacement of 36 cubic meters per hour, it offers the power needed for demanding professional applications. The compact design and recoil start system ensure easy portability and quick operation in the field.

Performance

Max Displacement	36 m ³ /h
Pump Lift	26 m
Suction Height	8 m
Inlet/Outlet Size	2 inch

Engine Specifications

Max Output

5.5 HP
Horsepower

3600 rpm
Rated Speed

Starting System

Recoil Start • Transistor Magneto

Engine Model	ZH160
Engine Displacement	163 ml
Bore x Stroke	68 x 45 mm
Compression Ratio	8.5:1

Capacities & Consumption

Fuel Tank Volume	3.6 L
Oil Volume	0.6 L
Min Fuel Consumption	313g/HP-hour

Dimensions & Weight

Physical Specifications

Metric	Value
Net Weight	26 kg
Gross Weight	28 kg
Package Dimensions	520 x 405 x 465 mm
