Product Overview

Reliable Central Locking Solution

This 2-pin central door lock actuator is engineered specifically for Renault 9 vehicles, serving as a critical component for the central locking system. Designed to meet strict OEM specifications, it ensures a precise fit and seamless integration for restoring vehicle security. Its robust construction provides durable, long-lasting performance for daily locking and unlocking operations.

Technical Specifications

Pin Configuration	2 pins
Operating Voltage	12V DC
Vehicle Compatibility	Renault 9

Logistics & Supply

Packaging Details

Item	Quantity
Inner Packaging	1pc/bubble bag
Carton Capacity	500pcs/ctn

Monthly Production Capacity

3000000 pcs
Auto Switch

1500000 pcs
Auto Relay

Services

Custom Development	Yes
