Overview

Professional HVAC Contactor

This 2-pole definite purpose contactor is engineered for reliable performance in residential and commercial air conditioning and refrigeration systems. Designed to facilitate safe and efficient electrical switching, it serves as a robust direct replacement for legacy CJX9 type contactors. With comprehensive certifications and a versatile design, it ensures consistent operation across a wide range of HVAC brands and applications.

Electrical Specifications

Detailed specification label for the HVAC contactor, including LRA and FLA ratings for various voltages.

Electricity Type	AC
Number of Poles	2
Phase	2
Coil Voltage	208V/240V
Max Circuit Voltage	600 V

Performance Metrics

Electrical Life

200000 Cycles
Operations

Mechanical Life

600000 Cycles
Operations

Compliance & Quality

Certifications

UL, CSA, CE, S Mark, CCC

Installation Data

A 2-pole contactor designed for HVAC systems, featuring secure screw terminal connections for reliable performance.

Torque Specifications

Component	Torque
Screws	20 in-lbs
Lugs	40 in-lbs
