Product Overview

High-Performance Cutting Power

This 52cc gasoline-powered chainsaw is engineered for demanding wood-cutting tasks, offering a robust solution for professional and residential applications. Featuring a 20-inch cutting capacity, it is well-suited for felling trees, pruning heavy branches, and preparing firewood. The design prioritizes both efficiency and user comfort, incorporating ergonomic handling to reduce fatigue during extended operation.

Technical Specifications

Engine Displacement	52 cc
Max Cutting Diameter	20 inch
No Load Speed	3200 rpm
Oil/Petrol Mixture Ratio	1:25

Features & Safety

Key Features

- 2-stroke engine
- Ergonomic handle design
- Chain brake system
- Throttle lock
- Anti-vibration system

Ideal Applications

Tree Felling, Pruning, Firewood Cutting
