

# 20-Inch Children's BMX Bike with Steel Frame

This BMX bike is designed for children and features a durable steel frame. It has 20-inch wheels and a single-speed drivetrain.

## Overview

### Rugged BMX Design for Young Riders

This 20-inch children's BMX bike is engineered for durability and fun, featuring a sturdy steel frame built to withstand active play. Designed with classic BMX-style handlebars and knobby tires, it offers excellent traction for off-road riding adventures. Safety and comfort are prioritized with an included chain guard and a padded seat, making it an ideal choice for young cyclists.
