Overview

Versatile All-Terrain Folding E-Bike

This 20-inch fat tire folding electric bicycle is engineered for versatility, offering reliable performance across diverse terrains including snow, sand, and trails. Featuring a robust high-carbon steel frame and a powerful 250W brushless motor, it provides a seamless riding experience with both pedal-assist and throttle capabilities. The compact folding design ensures easy storage and transportation, making it an ideal choice for urban commuters and outdoor adventurers alike.

Frame & Design

Frame Material	High Carbon Steel
Wheel Size	20 inch

Electric System
