

20 Liter Medical Oxygen Concentrator with Dual Outlets

This 20-liter oxygen concentrator meets medical standards, delivering oxygen at a concentration of 90-96%. It features dual oxygen outlets for simultaneous use, a timing function, and is mounted on wheels for easy movement.

Overview

High-purity oxygen generation meeting medical standards.

Versatile application suitable for inpatient wards, operating rooms, and home care.

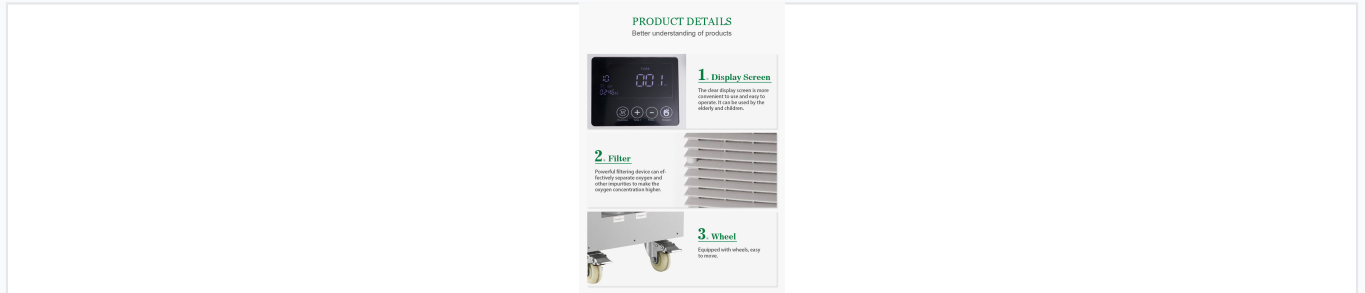

Professional Medical Oxygen Solutions

This 20-liter medical oxygen concentrator is designed for high-performance clinical and home healthcare environments. Featuring advanced lithium molecular sieve technology, it ensures a stable, medical-grade oxygen output of 90-96%. With its dual-flow capability and robust mobility features, this unit provides a versatile and reliable respiratory support solution for multiple patients simultaneously.

Performance Specifications

Oxygen Concentration	90%~96%
Flow Rate Range	20 L/min
Output Pressure	0.03~0.07
Sound Level	60 dB(A)

Technical Details

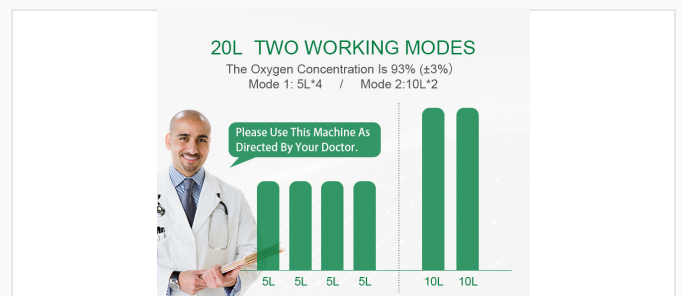

User-friendly digital interface with integrated mobility wheels for easy transport.

Rated Power	1300 W
Machine Dimensions	900 x 380 x 735 mm
Package Dimensions	1015 x 460 x 790 mm
Net Weight	68 kg
Gross Weight	72 kg

Features & Capabilities

Utilizes high-quality lithium molecular sieve for long-term reliability and efficient nitrogen separation.

Flexible working modes: supports 4 patients at 5L or 2 patients at 10L.

Operating Modes

Mode	Configuration
Mode 1	5L x 4 outlets
Mode 2	10L x 2 outlets

Key Features

Medical Standard, Dual Flow, Lithium Molecular Sieve, Automatic Shutdown, Oil-free Compressor, Movable
