

20-Liter Thermoelectric Cooler and Warmer

This thermoelectric cooler and warmer has a 20-liter capacity and is ideal for maintaining temperature-sensitive items. It cools to 18-22°C below ambient temperature and heats up to 65±5°C, indicated by LED lights.

Overview

Versatile Temperature Control

The TK-20A is a flexible thermoelectric cooler and warmer designed for diverse professional and personal environments. With a 20-liter capacity, it offers reliable cooling performance 18-22°C below ambient temperature and steady heating up to 65°C. Its multi-voltage support allows seamless transitions between home, office, and vehicle use.

Performance Metrics

Cooling Range

22 °C

Cooling below ambient

Heating Temperature

65 °C

Technical Specifications

Volume	20 L
Power Usage	60 W
Supported Voltages	AC 220V, AC 110V, DC 12V

Logistics & Packaging

FCL Capacity

Container Type	Capacity (Units)
20' Container	450
40' Container	826

Features

Product Highlights

- Thermoelectric cooling and heating
- Thermostat temperature control
- Dual-mode LED status indicators
- Detachable power supply cords
- Portable design for home, office, and car
