

20-Meter Heavy-Duty Extension Cord

This heavy-duty extension cord is 20 meters in length and weighs 4 lbs. It features an insulated H07RN-F spinal 3G2,5mm cable, a 16A maximum current, and an IP44 security level.

Product Overview

Heavy-Duty Power Solution

This 20-meter heavy-duty extension cord is engineered for demanding environments, offering reliable power delivery for construction equipment and high-amperage tools. Built with robust insulation and a high-grade cable structure, it ensures safety and durability in both indoor and outdoor settings. Its 16A capacity and IP44 rating make it a dependable choice for professional job sites requiring consistent, secure electrical connections.
