

20-Person Inflatable Throw-Over Life Raft

This inflatable life raft has a maximum storage height of 18~36m. It is designed for life-saving and is compliant with SOLAS(74/96) and MSSC.81(70) standards.

Product Overview

Maritime Safety Solution

This 20-person inflatable throw-over life raft is engineered for critical maritime safety and emergency response. Designed to accommodate up to 20 individuals, it features a highly visible, weather-resistant orange canopy that provides essential protection against the elements. The raft is equipped with stable inflatable buoyancy tubes and an integrated boarding ramp, ensuring rapid and safe access during emergency deployment.
