

# 20-Ton Hydraulic Bottle Jack for Heavy Lifting

This heavy-duty hydraulic bottle jack offers a 20-ton (40,000 lbs) lifting capacity for various applications. It features durable steel construction, an adjustable height extension screw, and a wide base for enhanced stability.

## Overview

### Professional 20-Ton Hydraulic Bottle Jack

This heavy-duty hydraulic bottle jack is engineered for reliable lifting performance in demanding automotive, construction, and industrial environments. Featuring a substantial 20-ton capacity, it provides the strength needed for lifting heavy machinery and commercial vehicles. Built with durable steel and a heat-treated extension screw, this tool ensures precise height adjustment and long-term service life.

## Technical Specifications

### Rated Capacity

**20 ton**

Lifting Capacity

**40000 lbs**

Max Load

### Design Features

- Heavy-duty steel construction
- Heat-treated extension screw for adjustable height
- Wide base for maximum stability
- Vertical orientation design

## Compliance and Safety

### Safety Instructions

- Use only on hard, level surfaces
- Vertical use only
- Always use jack stands for support under loads
- Never work under a load without additional support

### Certifications

ANSI, ASME PALD
