

20-Ton Mobile Truck Crane with Telescopic Boom

This 20-ton truck crane is designed for construction and industrial applications. Featuring a telescopic boom and truck-mounted design, it offers adjustable reach, lifting height, and easy transportation to various job sites.

Overview

20-Ton Mobile Truck Crane

This 20-ton mobile truck crane is a versatile lifting solution designed for construction and infrastructure projects. Featuring a 7-section telescopic boom, it offers a maximum lifting height of 40 meters and robust performance. Its truck-mounted design ensures excellent mobility and rapid setup, making it ideal for both industrial and material handling tasks.

Performance Metrics

Max Lifting Capacity

20000 kg
Max Capacity

Max Lifting Height	40 m
